

Proceedings of:

ISMTII '96

Third International Symposium on Measurement Technology and Intelligent Instruments

Sep. 30 - Oct. 3, 1996

Hayama, Kanagawa Pref.

JAPAN

Jointly Organized by

The Japan Society for Precision Engineering: JSPE

The Japan Society of Mechanical Engineers: JSME

The Society of Instrument and Control Engineers: SICE

Sponsored by

Japan Optical Measuring Instruments

Manufacturers Association

Japan Precision Measuring Instrument Association

Contents

Opening Session & Invited Presentation

Tuesday, October 1, 1996, 8:30 - 10:00

Session Chairman: K. Takada (Nagaoka University of Technology, Japan)
T. Miyoshi (Osaka University, Japan)

Opening Speech: Prof. Dr. A. Shimokohbe (Tokyo Institute of Technology, Japan)

Prof. Z. Li (Huazhong University of Science and Technology, China)

Invited Paper 1: **Contribution to Traceability and Compatibility in Dimensional Measurements** page 1

Dr. M. Sawabe (Mitutoyo Corporation, Japan)

Invited Paper 2: **A Route to Standardization of 3D Surface Topography - Characterization and Functional Verification** page 7

Prof. Dr. K. J. Stout (The University of Birmingham, UK) and L. Blunt

Invited Presentation

Wednesday, October 2, 1996, 13:30 - 14:30

Session Chairman: S. Kiyono (Tohoku University, Japan)

Invited Paper 3: **Signal Processing after Sampling - Today' s Problems and Solutions in Future** page 16

Prof. Dr.-Ing. habil. Dr. Ing. E. h. Eugen-Georg Woschni (Technical University of Chemnitz, Germany)

Invited Paper 4: **Research on High Accuracy Dynamic Positioning using Diode Lasers** page 21

Prof. Dacheng Li (Tsinghua University, China), J. Han, Y. Zhao, M. Cao and J. Wang

Oral Session 1: Signal Processing

Tuesday, October 1, 1996, 10:20 - 12:40

Session Chairman: E. G. Woschni (Technical University of Chemnitz, Germany)
R. Jablonski (Shizuoka University)

O1-1: **Dynamic Compensation of Self-heating Effect of Resistance Temperature Sensors with**

Fuzzy-Logic page 25

V. Hans (University of Essen, Germany) and H. Kollmeier

O1-2: **Neural Network Classification of Turbogenerator Vibration** page 29

I. Howard (Curtin University of Technology, Australia)

O1-3: **Applying the Wavelet Analysis to Reduce the Influence of Air Fluctuation of Heterodyne**

Interferometer page 34

L. Zhou (Huazhong University of Science and Technology, China), B. Zhao, Q. Chen and Z. Li

O1-4: **B-spline Curve Fitting of Non-Contact 3-D Digitizing Data by Taking Curvatures into**

Consideration page 38

T. Gotoh (Asahikawa National College of Technology, Japan), Y. Takaya and T. Miyoshi

O1-5: **Effect of Nonlinearity Error on the Measurements of Roughness Heights** page 44

S. Z. Zahwi (National Institute for Standards, Egypt) and A. M. Mekawi

- O1-6: **Error Separation Technique Benefitted by Secondary Messages** page 51
J. B. Tan (Harbin Institute of Technology, China) and X. M. Ding
- O1-7: **A Two-Stage Approach for Time-Domain Fault Detection of Analog Circuits** page 55
H. Jauch (Technical University Munchen, Germany)

Oral Session 2: Coordinate Measuring Machines

Tuesday, October 1, 1996, 13:30 - 15:30

Session Chairman: J. Pusaka (R &D Center for Calibration , Instrumentation and Metrology, Indonesia)
K. Mitui (Keio University, Japan)

- O2-1: **Calibration of Coordinate System Using Laser Trackers** page 59
M. Goto (National Research Laboratory of Metrology, Japan), Y. Tanimura and T. Kurosawa
- O2-2: **Evaluating the Effect of Temperature Variation on the Stability of a Coordinate Measuring Machine - An Adaptable Multi-point Method** page 66
W. J. Liao (The University of Birmingham, UK), K. J. Stout, L. Blunt and R. Aston
- O2-3: **Development of a Six-degree-of-freedom Error Measurement System for the Accuracy Calibration of Machine Tools and CMMs** page 72
K. C. Fan (National Taiwan University, Taiwan), M. J. Chen and W. M. Huang
- O2-4: **A New Shape Measuring Method for the Work-piece with Complicated Curved Form** page 79
X. Qiang (Harbin Institute of Technology, China), F. Chen, W. Tang and S. Zhu
- O2-5: **A Form Fitting Method for Composite Features in Coordinate Metrology** page 83
F. Tanaka (Hokkaido University, Japan), H. Okamoto and T. Kishinami
- O2-6: **Thermal Deformation of CMM Structure and Measuring Accuracy** page 91
K. Sato (Tokyo Institute of Technology, Japan), T. Shinshi, H. Tamai and A. Shimokohbe

Oral Session 3 : Sensing Technology

Tuesday, October 1, 1996, 15:50 - 17:50

Session Chairman: V. Hans (University of Essen, Germany)
M. Fukuda (NTT, Japan)

- O3-1: **Remote Sensing of Mechanical Forces by BAW- and SAW-Sensors** page 97
R. Großmann (Technische Universitat Munchen, Germany), J. Michel, Th. Sachs, E. Schrüfer
- O3-2: **A Contribution to Nano- and Microhardness Measurements on Metal Kerfs Obtained by Precision Abrasive Water Jet Cutting** page 105
R. Groppetti (Unversita degli Studi di Parma, Italy) and T. Gutema
- O3-3: **Thermal Distribution Analyse on Material Storages Realised by Non Contact Measurement** page 113
A. Kobosko (Industrial Research Institute for Automation & Measurement, Poland)
- O3-4: **On the Feature Evaluation for the Fault Diagnosis of Electric Fractional Horse Power Motors** page 119
D. Filbert (Technical University Berlin, Germany) and K. Röpke
- O3-5: **Intelligent Gas Sensing Systems Based on High Frequency Interrogation Techniques and Neural Networks** page 128
P. A . Payne (University of Manchester Institute of Science and Technology, UK), M. E. H. Amrani, R. M. Dowdeswell, K. C. Persaud and P. J. Travers
- O3-6: **Decentralized Intelligent Microsystems in the Private Home** page 135
C. Kellner (Technical University Munchen, Germany), W. Müller, F. Schneider and T. Weinzierl

Poster Session

Tuesday, October 1, 1996, 19:30 - 21:00

Poster Session 1 : Signal Processing, Measurement Theory

- P1-1: Fast Parallel Algorithms in Environment Monitoring Systems** page 143
I. Kalchev (Technical University of Sofia, Bulgaria)
- P1-2: A New Signal Processing Technology_SCM** page 147
F. R. Kong (Univ. of Sci. and Tech. of China, China), C.Q. Li and W. Z. Xu
- P1-3: Grey Model Method of Data Compressing and Uncompressing** page 150
H. Shu (Huazhong University of Science and Technology, China), Y. L. Huang and Z. Li
- P1-4: Improving CMM Accuracy by Software Error Compensation** page 153
P. A. Cauchick-Miguel (The University of Birmingham, UK), P. L. Saunders and T. G. King
- P1-5: The Master-Slave Two-Level Distributed Microcomputer Measuring and Monitoring System for Cement Calcination in Vertical Kiln** page 161
L. S. Liu (Huazhong University of Science and Technology, China), L. M. Liu and B. A. Abderrazek
- P1-6: Forecasting Control Based on AR(p) Model and Its Application in On-line Compensation of Gyro Random Drift** page 163
Z. Shi (Shizuoka University, Japan), B. Zhou and H. Aoyama
- P1-7: An Appropriate Model for Prediction Control of Nonlinear Nonstationary Signal** page 166
Z. Shi (Shizuoka University, Japan) and H. Aoyama
- P1-8: A Method for Increasing Sampling Points in Serial Three-point Method of Straightness Measurement** page 170
S. Ma (Beijing Institute of Technology, China)
- P1-9: A New Method on the Evaluation of Roundness Errors** page 174
Q. Wan (Harbin University of Science and Technology, China), S. Yang, Y. Sun and R. Che
- P1-10: Profile Measurement by the Combined 3-point Method** page 177
W. Gao (Tohoku University, Japan) and S. Kiyono
- P1-11: Study of Large Scale Instrument for Cylindricity Measurement** page 180
J. B. Tan (Harbin Institute of Technology, China), D. S. Li, W.J.Wang, W. G. Yang and W. Q. Zhao

Poster Session 2 : Quality Control, Surface Measurement

- P2-1: The Calculation Problems of the Temperature Affection on Instrument and Measurement Accuracy** page 185
Y. Fei (Hefei University of Technology, China) and Q. Huang
- P2-2: An Intelligent Torque-wrench Calibrating Apparatus** page 188
X. Y. Yu (Harbin University of Science and Technology, China), Q. S. Wang, X. F. Qiang and L. Z. Hou
- P2-3: Introducing Total Productive Maintenance into a Small Manufacturing Company** page 191
E. Mainsah (Coventry University, UK), W. Murcott and K. P. Kasanda
- P2-4: A New Approach for Quantitative Measurement and Evaluation of Real Lubricating State of Gear with Complicated Curved Surface** page 199
X. Cao (Chongqing University, China) and Y. Wei
- P2-5: Computer Supported Measuring System for Dimensional Control of Parts** page 203
J. Jurkovič (University of Ljubljana, Slovenia), T. Špan and J. Kopač
- P2-6: Parameters for Three Dimensional Surface Texture Character Analysis** page 209
M. Wieczorowski (Poznan University of Technology, Poland), A. Cellary and J. Chajda

P2-7: Performance of Dual Tunneling Units STM Designed for Comparative Length Measurement	page 217
M. Aketagawa (Nagaoka University of Technology, Japan) and K. Takada	
P2-8: A Non-contact Surface Roughness Measuring System for Grinding Surface	page 222
H. Yuan (Harbin University of Science and Technology, China), B. Liu, X. Qiang and J. Zhang	
P2-9: Three-Dimensional Parametric Characterisation of Cylinder Liner Bore Polish	page 226
D. L. Butler (The University of Birmingham, UK), L. A. Blunt, R. F. O'Connor and K. J. Stout	
 Poster Session 3 : In-process & Optical Measurement	
P3-1: Development of the Filament Quality On-line Inspection System	page 235
R. Jablonski (Shizuoka University, Japan) and P. Fotowicz	
P3-2: Measurement of Stria Frequency in CO₂ Laser Cutting of Mild Steel Samples	page 238
B. S. Yilbas (KFUPM, ME Dept. Dhahran, Saudi Arabia), M. Sami and Z. Yilbas	
P3-3: Study on Nano-inprocess Measurement of Silicon Wafer Surface Defects by Laser Scattered Defect Pattern	page 243
S. Takahashi (Osaka University, Japan), T. Miyoshi and Y. Takaya	
P3-4: The Measurement of Static Torsional Stiffness of Gears in Mesh	page 251
S. Sirichai (Curtin University of Technology, Australia), L. Morgan, I. Howard and K. Teh	
P3-5: A Study on a Measurement System of EDM Wire Displacement Using Optical Edge Detection	page 259
C. W. Lee (Nagaoka National College of Technology, Japan), R. Yamada and K. Yanagi	
P3-6: Development of Precision Angle Sensors and Measurement of Angular Profile Polygonal Mirrors	page 266
S. Zhang (Tohoku University, Japan), S. Kiyono, Y. Uda and M. Mito	
P3-7: A Coordinate Measuring Method Using Laser Plane Scanners - Fundamental Principle and Experiments on 1-D and 2-D measurements	page 272
C. Kanamori (The University of Electro-Communications, Japan) and M. Kajitani	
P3-8: Five Degree-of-freedom Measuring System	page 280
S. Ye (Tianjin University, China), C. Sun and F. Zhou	
P3-9: Laser Heterodyne Interferometer with Internal Common Optical Path	page 283
L. Zhou (Huazhong University of Science and Technology, China), B. Zhao, Z. Fan and Z. Li	
P3-10: A Compact Heterodyne Interferometer and its Application	page 286
H. F. Qiu (Beijing Institute of Machinery Industry, China)	
 Poster Session 4 : Image Processing, Sensing Technology	
P4-1: A Comparison of Different Calibration Methods for the Sensor Used in Vision Measurement System	page 289
Y. Sun (Harbin University of Science and Technology, China), Q. Wan, S. Yang and R. Che	
P4-2: Process Identification and Evaluation of Surface Roughness Using Vision System	page 295
M. B. Kiran (Indian Institute of Technology, India), B. Ramamoorthy and V. Radhakrishnan	
P4-3: Development of an Automatic Scraping Machine with Recognition for Bearing of Scraped Surfaces (1st Report) - Recognition of Black Bearing by CCD Camera	page 303
H. Tsutsumi (Nagaoka University of Technology, Japan), A. Kyusojin and T. Nakamura	
P4-4: In-process Measuring System for Parts' Dimension and Shape Using Laser-CCD	page 309
D. Li (Harbin Institute of Technology, China), J. Li, H. Ge and M. Chen	
P4-5: The Internal Gun Barrel Quality Detection Instrument & Accuracy Analysis	page 312
H. Gong (Harbin University of Science and Technology, China), L. Sun, H. Yuan, B. Liu and L. Wu	

P4-6: **A Robot for Coat Thickness Measurement of Tank Walls** page 317
 H. Gong (Harbin University of Science and Technology, China), S. Wang, L. Sun, M. Zeng and Y. Wang

P4-7: **A Robot for Measuring Small Diameter Pipeline and Its Accuracy Analysis** page 321
 H. Gong (Harbin University of Science and Technology, China), L. Sun, S. Wang and M. Zeng

P4-8: **A Pendulous Inclination Angle Transducer** page 324
 Q. S. Wang (Harbin University of Science and Technology, China), X. Y. Yu, X. F. Qiang and L. Z. Hou

P4-9: **Micromachined Piezoelectric PZT Force Sensors for Scanning Force Microscope** page 328
 C. Lee (The University of Tokyo, Japan) T. Itoh, J. Chu, R. Maeda and T. Suga

P4-10: **Development of Piezodriven XY γ Positioning Device Using Impulsive Force** page 336
 H. Isobe (Nagaoka University of Technology, Japan), A. Kyusojin and T. Moriguchi

P4-11: **Study On A Two Dimension Micro-stage Used In Ultraprecision Machine Tool** page 343
 D. Gao (Harbin Institute of Technology, China), M. Zhou, Z. J. Yuan and J. B. Tan

P4-12: **The Study on 3D Coordinate Measurement of Feature Points on Large Industrial Objects Using Computer Vision Method** page 348
 S. Zhu (Harbin Institute of Technology, China), Q. Liu, X. Qiang and X. Sun

Oral Session 4 : Image Processing

Wednesday, October 2, 1996, 8:20 - 10:00

Session Chairman: E. Mainsah (Coventry University, UK)

I. Yamaguchi (The Institute of Physical and Chemical Research, Japan)

O4-1: **In-process Tool Wear and Failure Monitoring** page 353
 K. H. W. Seah (National University of Singapore, Singapore), K. S. Lee and L. K. S. Lim

O4-2: **Use of Grey Analysis in Fault Identification** page 359
 K. L. Wen (National Central University, Taiwan), J. H. Wu

O4-3: **In Process CCD Camera Measurement of Grinding Wheel Wear** page 364
 K. Banyai (University of Miskolc, Hungary) and G. Varga

O4-4: **Inspection System for Assembly Configuration of Steel Arch Bridge Members** page 370
 Y. Kozakura (Yokogawa Bridge Corporation, Japan), K. Torii and K. Takada

O4-5: **Development of a Cursor Pointing Laser Range Finder** page 378
 K. Tatsuno (Toshiba Corporation, Japan), M. Uenohara and H. Matsuzawa

Oral Session 5 : Quality Control, Standards

Wednesday, October 2, 1996, 10:20 - 12:20

Session Chairman: P. A Payne (University of Manchester, UK)

Y. Tanimura (National Research Laboratory of Metrology, Japan)

O5-1: **Micro-Dimensional Standards for Semiconductor Industry in Japan** page 383
 T. Hatsuzawa (Tokyo Institute of Technology, Japan) and Y. Tanimura

O5-2: **Combined Mechanical Design for Calibration System for Length bars and Line Standards** page 387
 J. Pusaka (R & D Center for Calibration, Instrumentation and Metrology, Indonesia), D. Andiani, A. P. Drijarkara, M. Anwar, Sukardi

O5-3: **Overlay Error Measurement Method Using Optical Heterodyne Detection** page 391
 M. Suzuki (NTT LSI Laboratories, Japan), M. Fukuda and H. Tsuyuzaki

O5-4: The MOTIF-Method, a New Draft of an ISO-Standard (ISO/DIS 12085) to Measure Surface Roughness and Waviness with a Stylus Instrument	page 399
M. Dietzsch (Technical University of Chemnitz-Zwickau, Germany), T. Hartmann, K. Papenfuß	
O5-5: Developing a Quality Cost Information System	page 406
E. Mainsah (Coventry University, UK) and K. P. Kasanda	
O5-6: Acoustic Emission Measurement for Quality Control and Process Monitoring in Cutting Operations	page 411
W. Meyer (Technical University of Chemnitz, Germany), U. Neumann and H. -H. Hörl	

Oral Session 6 : In-process & Optical Measurement

Wednesday, October 2, 1996, 14:30 - 16:30

Session Chairman: J. H Wu (National Central University, Taiwan)

T. Hatsuzawa (Tokyo Institute of Technology, Japan)

O6-1: A New Type of Common Path Heterodyne Profilometer with Annular Lens	page 419
J. Li (Tsinghua University, China), Y. Zhao, D. Li	
O6-2: The Double-Nozzled Pneumatic Sensor	page 422
J. Jermak (Poznan University of Technology, Poland), M. Rucki	
O6-3: Precision Measurement on Dimension-Form Errors of the Surface Under a Deep Small Hole	page 427
Z. Wang (Huazhong University of Science and Technology, China), Z. Li and J. H. Wu	
O6-4: Development of a Roundness Measurement System for Parallel Rollers Based on a V-Block Double Enlargement Device	page 432
K. Goho (Keio University, Japan), K. Mitsui and A. Hayashi	
O6-5: Study on the Single Valley Characteristic of Cylindricity Objective Function	page 438
H. Zhen (Zhanjiang Fisheries College, China)	
O6-6: Up -to-Date Method for Geometrical Inspections of Helicoid Surfaces	page 443
I. Dudás (University of Miskolc, Hungary)	

Oral Session 7 : Physical Quantity Measurement, SPM

Wednesday, October 2, 1996, 16:50 - 18:10

Session Chairman: K. H. W. Seah (National University of Singapore, Singapore)

N. Uchida (Toshiba Corporation)

O7-1: Characterization of Nano-Scale Mechanical Properties by Novel Vibration Mode in Scanning Probe Microscopy	page 451
K. Yamanaka (Mechanical Engineering Laboratory, Japan), S. Nakano and H. Ogiso	
O7-2: A New Type of Dual Tunneling-Unit Scanning Tunneling Microscope for Length Measurement Based on Crystalline Lattice	page 458
T. Higuchi (Kanagawa Academy of Science and Technology, Japan), H. Zhang and N. Nishioki	
O7-3: Approaches of Improving Image Quality for a Commercial STM and Evaluating its Thermal Behaviour in the Nanolab	page 461
H. Wei (The University of Birmingham, UK), M. Aketagawa, L. Blunt and K. J. Stout	
O7-4: Application and Development of Scanning Probe Microscopy Utilized the Quartz Crystal Microbalance Technique	page 468
F. Iwata (Shizuoka University, Japan), M. Kawaguchi, A. Sasaki and H. Aoyama	

Authors Index	page 475
